### Where can I use Starlink in motion for land mobility or maritime use?

Starlink is available for use in waters around the globe with applicable service plans.

Coverage in local territorial waters and in motion for land is contingent on government approval. Starlink for ocean or in motion land use is available in the following countries:

- |               |                  |                |
|---------------|------------------|----------------|
| United States | Barbados         | Canada         |
| Bulgaria      | Australia        | Croatia        |
| New Zealand   | Czech Republic   | United Kingdom |
| Denmark       | Germany          | Estonia        |
| Italy         | Finland          | Chile          |
| French Guiana | Poland           | Guadeloupe     |
| Switzerland   | Guernsey         | Austria        |
| Mayotte       | Belgium          | Portugal       |
| Puerto Rico   | Saint Barthelemy | Norway         |
| Slovakia      | France           | Sweden         |
| Slovenia      | Iceland          | Netherlands    |
| Ireland       |                  |                |

Mobile Priority – 50GB, 1TB, 5TB: fastest network speeds (up to 220 Mbps download and 25 Mbps upload) with nearly full global ocean coverage. Includes unlimited Mobile Data if you choose not to opt-in for continued ocean use.
